

# IACS eXplorer

**SENSIFIC**  
Label-free Cell Sorters

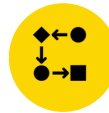

**Imaging-based online  
screening**

**Label-free sorting**

**Complex assays &  
individual cell responses**

**Droplet and flow  
microfluidics**

## APPLICATIONS

**Personalized Medicine | Cell Therapy |  
Drug Discovery | Antibody Screening |  
Sequencing | Organoid Screening**

**Harness the power of Imaging-Activated Cell  
Sorters to analyze individual cell responses  
beyond just structural parameters.**
